Faculty of Engineering and Technology

School / Program

Faculty of Engineering and Technology/

Master of Computer Application

Faculty Introduction (Five to Six Lines)

Ganesh V Y, and I have completed my Master of Computer Applications (MCA). I have a strong academic background in computer science with practical knowledge in programming and web technologies. I am proficient in **HTML, Java, and Python**, and I also have experience in **front-end design** and **full stack development**. This enables me to build and understand complete software applications effectively. Along with programming, I have a keen interest in networking concepts and continuously explore this domain to enhance my technical expertise. I am passionate about teaching and sharing knowledge with students in a clear and structured manner. I strive to create an engaging learning environment that encourages curiosity and innovation. My goal is to help students develop both theoretical understanding and practical skills. I believe in continuous learning to stay updated with emerging technologies. I am dedicated to contributing positively to the academic community.
